VPTc10-28 Series

EMI Filter and Transient Suppressor

Performance Graphs

**ABOVE:** The VPTc10-28 is shown filtering EMI to the European defense specification of DEF STAN 59-411 Part 3 Issue 1, DCE01.B for Land Service Use, Class A.

**AT LEFT:** This graph shows the VPTc10-28 clamping a transient voltage spike, resulting in smooth, uninterrupted performance of a power system per U.S. and European defense specifications.
